

EMT Cartridges

JSD Classic Series

In 2006, professional broadcast manufacturer EMT introduced the JSD series, developed specifically for real music lovers. The MC-cartridges feature a diamond in either Gyger S (5) or Super-Fine-Line (6) shape.

The JSD Classic Line fascinates with high resolution tracking and holistic musical performance. The high polish quality of the diamond reduces tracking noise and the dynamic transducer involves the listener in nothing else but music.

- 1 Cartridge body, made of aluminium
- 2 Magnet, golden coated
- 3 Pin-connection, golden coated
- 4 Diamond, high polish grade
- 5 Boron cantilever
- 6 Stereo transducer unit
- 7 Suspension and damping element

EMT was founded in 1940 and became famous by manufacturing professional turntables in Lahr, Germany. In 1965, EMT launched the famous MC cartridge TSD 15, which was produced in many ten-thousand pieces and used in broadcast studios all over the world.

In 1974, the portfolio was widened for hi-fi listeners and in 2006, the JSD series was introduced. Since 2014, all EMT cartridges are designed and manufactured in Switzerland.

We at EMT are enthusiastic about music reproduction and we feel sure that analogue technology harmonizes best with the nature of music.

All pickups are built piece by piece in fine craftsmanship by our well educated team of watchmakers and assembling employees. Even if we are familiar with most modern designing and manufacturing equipment, personal experience in listening and manual skills are the real reason making our cartridges so precious and musical.

		
Specification	JSD 5	JSD 6
Diamond:	Gyger S	Super-Fine-Line
Weight:	10g	
Transducer:	MC Stereo	
Tracking force:	2.4g	
Output voltage @ 5cm/s:	1.05mV	
Compliance:	12µm/mN	
Recommended load:	200 - 300Ω
